Are
you?

Hoping to "rescue" the content from your obsolete 2-inch QUAD NTSC videotapes?

Hoping to take advantage of new technology options, such as our direct-to-hard drive, that will provide you with 8-bit uncompressed ready-to-edit files for your MAC or PC?

Overview

- o Your 2-inch tape is transferred direct to hard drive
- o You choose PC AVI or MAC QuickTime uncompressed 8-bit files (Black Magic codec)
- o Files are sent to you on external Bono hard drives or client SATA drives (must be new from the manufacturer)
- o Options include transfer of content to your choice of NTSC tape format (*price of stock is additional and cost will depend upon format requested*)

Description	Unit	Fee
Transfer to drive - <i>based on runtime of material</i>	Per runtime hour	\$345.00
Minimum transfer charge per tape	Per tape	\$172.50
